

MANTRA Release Debut Album “The Moth”

Seattle, WA USA- Alternative metal group -MANTRA- are thrilled to release their debut album, “The Moth” in December 2024, available now on all streaming platforms.

Mantra draws inspiration from a diverse range of musical influences, such as A Perfect Circle, TOOL and Chevelle, blending elements of alternative metal, progressive rock, post-grunge, and hard rock to create their distinctive sound.

Their music weaves intricate guitar work, pulsating rhythms, and anthemic choruses with reflective lyrics that delve into the complexities of the human experience. From soaring highs, as heard on the tracks “*Drown Me*” and “*End Of Chapter*”, to profound lows and melodic melodies, shown in the introduction track to the album “*A Moment of Virtual Peace*” and the title track “*The Moth*”, Mantra's songs strive to serve as a cathartic outlet providing solace and connection for the band and their audience.

Mantra began as a passion project of two Chicago musicians, guitarist Dennis Franco and bass player Nate Pirtle in 2018. They sought out the talents of vocalist Violet Sky and drummer Adam Baumol to solidify the **Mantra** sound.

As they continue to carve their path in the ever-evolving world of music, their mantra is clear: to craft sonic artistry and melodies that inspire, lyrics that resonate, and to bring energized performances to audiences everywhere.

Members: Vocals- Violet, guitar- Dennis, bass- Nate, drums- Adam. Based in Seattle, Washington.
